A full day True Sicilian Experience with a little touch of Hollywood - A Step Back in Time in Savoca ("THE GODFATHER LOCAL TOUR") and Forza D'Agrò. Starting from your port to reach and explore Savoca is almost like taking a step back in time. Although recorded with its present name in 1415 the town probably dates back to the first half of the 12th century when a Norman Fortress was built there. Savoca is not a tourist town, it is a simple every day "local" town. Here is where the movie GodFather was filmed. While in town "a must" is the stop for a Lemon Granita at the famous bar "VITELLI" on the corner of the town. Then make your way to the church of Santa Lucia where the scene of the wedding between Apollonia and Michael was shot! From Savoca we will visit Forza d'Agrò which still conserves its medieval street layout and on all sides of the town you have the most incredible views. Driving down from Forza d'Agrò through a wonderful scenery with photo stops at the most beautiful locations Taormina.
